

Renewable Energy Components Group

Visit us at the Solar Showcase to be held in Toronto, December 7th and 8th.

RJ Metal Fabricators
ED Products
Pencom Canada
Dunrite Welding & Design
Combat Batteries & Chargers Inc.

With the need for new power sources, Sb Marketing Inc. is acting as a member of the sales team for the above supplier partners. We are also partnering with Centennial Solar (Mfg. solar panels) in Montreal to provide 130 W and 210 W panels. See <http://www.centennialsolar.com> for complete detail.

Wind Energy, Biomass and all Renewable Energy Systems manufacturers and distributors are invited to make use of our manufacturing facilities. We invite request for quotes.

A Preview of Our Strategic Supplier Partners

Laser & Waterjet Cutting

• Our Capabilities

We have a 5 pallet, precision horizontal machining center with 1200mm x 1200mm pallets which is a true flexible manufacturing system (FMS). It has 1500mm of cross travel, a 300 station automatic tool changer and has 360 degree incremental rotation of pallets. We also have a smaller 2 pallet horizontal machining center as well as 3 manual horizontal boring mills with the largest having 14' of cross travel. In our turning division, we have a large bore

(13" thru bore with chucks on both ends) conversational CNC lathe, alongside of 4 slant bed production lathes. We have all of the manual equipment to back up the CNC equipment as well. We also have a lifting capacity of 400 tons outside and inside the facility if required.

RJ Metal Fabricators moves to Cambridge

Now located in 35,000 Ft facility with 80 Ton and 50 Ton capacity Cranes to support heavy fabrication and weldments.

RJ Metal Fab Inc. manufactures products for many industries, including:

- Automotive (Alternate Fuels, Van Conversions)
- Appliances & Furniture
- Construction - Fabric Structures, Ladders, Platforms, Railings, Tanks, Towers
- Computer and Network Appliance Cases
- Heating Industry
- Industrial Equipment
- Retail Sales & Point of Purchase
- Solar Industry - Frames, Mounting Brackets

CONSIDER OFFSITE INDUSTRIES

Member: Niagara Industrial Association

Powder Coating Service, Plastic, Metal and Dunn age Cleaning, Component Cleaning and De-Rusting, Glass Bead Cleaning, Sort Inspection and Containment, Order Fulfillment, Return Processing, Repair
